[A] Main Inspiration + Idea :

We are improving our previous idea/s to suit our requirements in ::-> R&D Domains of Space + Mobile Computing Environments.

Please follow our references/ : https://www.vixra.org/pdf/1709.0404v1.pdf -> Just fine tune our algorithm.

Other References : https://www.genome.gov/dna-day/15-ways/dna-sequencing

Rigorous Testing in Progress @ the TIME of Submission.

Non-Profit R&D.

Conclusion/s + Future Perspectives : *We are so HAPPY to note that several researchers are fine tuning our algorithms in Space + Medicine + Telecoms + IoT + HPC Heterogenous Systems R&D.*

[THE END]
